

Drain Guard System for External Floating Roof Drains

Description:

EnviroEye is a drain guard system that attaches by flange to the roof drain valve. The system detects the presence of hydrocarbons and can activate a valve and notify personnel that a tank needs attention.

End Use:

The drain guard system can be installed within the envelope at the

base of a tank, as an alternative to leaving the drain valves closed. Patent Pending.

Sizing:

Flange size of the exit of roof drain
4" to 6"
6" to 8"
8" to 10"
10" to 12"
custom configurations available

Options:

Dual Valves for zero tolerance
Audio/Visual alert
Text Alert
By-Pass Valve

Advantages:

- Automate roof drainage procedures
- Reduce loss of product
- Demonstrate Environmental responsibility
